#### INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.
PCT/EP2004/007298

	PC1/EP2004/00/298
Box No. V	Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
2.2	Although D2 solves a similar problem, D2 discloses
	only a single application head with which it is
	not possible to selectively choose the discharge
	openings for the size.
	The solution to this problem as proposed in
	claim 1 of the present application therefore
	involves an inventive step (PCT Article 33(3)).
3	Independent claim 13 and dependent claims 2-12 and
	14 are therefore also novel and inventive.
